

# Safety Data Sheet

#### according to Safe Work Australia document

#### "Model Code of Practice : Preparation of safety data sheets for hazardous chemicals" Issued Date : 25 December 2013 Revised Date: 13 December, 2023 SECTION 1: Identification ; Chemical product and company identification 1.1. Product identifier Product Name : Artline 400XF,409XF,440XF,444XF Paint Marker Colour : (Black) EK-400N, EK-409N, EK-440N, EK-444N PAINT MARKER CO 23 1.2. Relevant identified uses of the substance or mixture and uses advised against PAINT MARKER C Recommended use : Paint marker ink 1.3. Details of the supplier of the safety data sheet PAINT MARKER G12 : ACCO Brands Australia Pty Ltd Supplier Company Name PAINT MARKER GUS Address : 2 Coronation Avenue, Kings Park, 2148 NSW, Australia : 02 9674 0900 (9am to 5pm AEST, Monday to Friday) Phone Contact (e-mail) : sds.anz@acco.com Website : www.accobrands.com.au Manufacturer Company Name : Shachihata Inc. Address : 4-69, Amazuka-cho, Nishi-ku, Nagoya City, 451-0021, Japan Phone : +81-52-521-3600 Fax : +81-52-521-3899 : https://www.artlineworld.com/contact/ Contact 1.4. Emergency telephone number Poisons Information Centre : 13 11 26 **SECTION 2: Hazards identification**

Hazardous Substance, Dangerous Goods.

Classified as hazardous according to the criteria of Safe Work Australia (SWA - formerly NOHSC), and as Dangerous Goods according to the Australian Dangerous Goods (ADG) Code for Transport by Road and Rail.

#### 2.1. Classification of the substance or mixture

#### 2.1.1. Classification (SWA)

- Flammable liquids, Category 2
- Skin irritation, Category 2
- Specific target organ toxicity;

single exposure, Category 3 (narcotic effects)

Aspiration toxicity, Category 1

Hazardous to the aquatic environment,

chronic toxicity, Category 2

### 2.2. Label elements

Labelling (SWA) Symbols

Signal word

: Danger

Hazard statement	:	Highly flammable liquid and vapour
		Causes skin irritation
		May cause drowsiness or dizziness
		May be fatal if swallowed and enters airways

- H225 : Highly flammable liquid and vapour
- H315 : Causes skin irritation
- H336 : May cause drowsiness or dizziness

H304 : May be fatal if swallowed and enters airways H411 : Toxic to aquatic life with long lasting effects

(H304)

Toxic to aquatic life with long lasting effects	(H411)
ecautionary statement	
[Prevention]	
Keep out of reach of children.	(P102)
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.	(P210)
Take precautionary measures against static discharge.	(P243)
Avoid breathing vapours.	(P261)
Wash hands thoroughly after handling.	(P264)
Use only outdoors or in a well-ventilated area.	(P271)
Avoid release to the environment.	(P273)
Wear protective gloves and eye protection .	(P280)
[Response]	
In case of fire : Use dry chemical powder, foam or carbon dioxide to extinguish.	(P370+P378)
IF SWALLOWED : Immediately call a POISON CENTER or physician.	(P301+P310)
IF ON SKIN : Wash with plenty of water and soap.	(P302+P352)
IF ON SKIN (or hair) : Take off immediately all contaminated clothing. Rinse skin with water.	(P303+P361+P35
IF INHALED : Remove person to fresh air and keep comfortable for breathing.	(P304+P340)
Call a POISON CENTER or physician if you feel unwell.	(P312)
Do NOT induce vomiting.	(P331)
If skin irritation occurs : Get medical advice and attention.	(P332+P313)
Collect spillage.	(P391)
[Storage]	
Store in a well-ventilated place. Keep container tightly closed.	(P403+P233)
[Disposal]	
Dispose of contents and container in accordance with local regulations.	(P501)

#### 2.3. Other hazards

No information available.

# SECTION 3: Composition/information on ingredients

Ingredients :

Chemical Name / Generic name	Composition weight %	CAS Registry No.	Hazard Class (category)	Hazard statement
Methylcyclohexane	40 ~ 50	108-87-2	Flam. Liq. 2 Skin Irrit. 2 STOT. SE. 3 Asp. Tox. 1 Aquatic Chronic 2	H225 H315 H336 H304 H411
Isoparaffinic Hydrocarbon	1 ~ 10	Confidential	Flam. Liq. 3 Asp. Tox. 1 Aquatic Chronic 2	H226 H304 H411
Synthetic resin	40 ~ 50	Confidential	none	none
Carbon black	1 ~ 10	1333-86-4	none	none
total	100			

# SECTION 4: First-aid measures

# 4.1. Description of first aid measures

IF INHALED	<ul> <li>Remove victim to fresh air and keep at rest in a position comfortable for breathing.</li> <li>Consult a doctor if symptoms persist.</li> </ul>
IF ON SKIN	<ul> <li>Remove / Take off immediately all contaminated clothing. Wash with soap and water.</li> <li>If skin irritation/rash occurs or feel unwell, consult a doctor for medical advice.</li> </ul>
IF IN EYES	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention.
IF SWALLOWED	: After rinse mouth immediately, give about 250 ml of water or milk and thin in the stomach, and do not vomit forcibly. Moreover, do not give anything from the mouth to the patient when not conscious. Receive the doctor's treatment (stomach pump) promptly.

#### SECTION 5: Firefighting-measures

#### 5.1. Extinguishing media

Suitable extinguishing media Unsuitable extinguishing media : Dry chemical powder, foam or carbon dioxide

hing media : Water jet

#### 5.2. Special hazards arising from the substance or mixture

For initial stage extinction, carbon dioxide or dry chemical powder. When a fire extends, fire is extinguished by a large amount of water spray. Do not discharge extinguishing waters into the aquatic environment.

#### 5.3. Advice for firefighters

In the extinction work, an appropriate protective equipment (gloves, glasses, and mask) has to be worn. Because during a fire, hazardous gases may be generated, fire-fighters have to wear self-contained breathing apparatus and other protective equipment.

#### **SECTION 6: Accidental release measures**

6.1. Personal precautions, protective equipment and emergency procedures

Evacuate personnel to safe area. Shut off all sources of ignition.

No Flares, smoking or flame in area. Put on protective equipment. Ensure adequate ventilation.

#### 6.2. Environmental precautions

Do not throw the leakage thing directly into environment

6.3. Methods and material for containment and cleaning up

In case of a small spill, remove by absorbing with absorbents (sawdust, soil, sand, waste cloth, etc.), and then wipe off the waste well with waste cloth, and rag.

In case of large spills, prevent leakage by enclosing with nonflammables (earth and sand, etc.)

and collect into empty container by scoop, suction equipment or the like.

### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Advice on safe handling	: Use with adequate ventilation.
	Avoid contact with skin, eyes and clothing.
	Obtain special instructions before use.
	Do not handle until all safety precautions have been read and understood.
	Do not eat, drink or smoke when using this product.

#### 7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage<br/>areas and containers: Keep containers tightly closed and store in a cool and dry place.<br/>Keep away from heat and flame, ignition source and sunlight.<br/>Keep out of the reach of children.

#### SECTION 8: Exposure controls and personal protection

8.1. Control parameters			
Australian exposure standa	rds (2019)		
Methylcyclohexane	TWA	400 ppm	
Carbon black	TWA	3 mg/m <sup>3</sup>	
EH40/2005 Workplace exp	osure limits (F	Fourth Edition, published 2020)	
Carbon black	TWA	3.5 mg/m <sup>3</sup>	
ACGIH (2019)			
Methylcyclohexane	TWA	400 ppm	
Carbon black	TWA	3 mg/m <sup>3</sup>	
9.2 Experies controls			

#### 8.2. Exposure controls

Personal protective equipm	ent
Respiratory Protection	: Use with local exhaust ventilation, when in long use.
	Avoid breathing vapours. Wear mask to prevent organic gas, if necessary.
Hand Protection	: Avoid contact with hands. Wear safety gloves, if necessary.
Eye Protection	: Avoid contact with eyes. Wear safety glasses, if necessary.
Skin Protection	: Avoid skin contact. Wear personal protection apron, boots, if necessary.

Environmental exposure controls

[(AU) SWA][Shachihata Inc.] [EK-400N\_black\_g] 4/6

- General advice
- : Prevent product from entering drains.

Prevent further leakage or spillage if safe to do so.

If the product contaminates rivers and lakes or drains inform respective authorities.

## SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties		
: Black liquid		
: Minor solvent odour		
: Not applicable		
∶ 100 ~ 153 °C		
: −3 °C (closed cup)		
: 0.8 ~ 1.0 (g/cm <sup>3</sup> )		
: Insoluble		

# SECTION 10: Stability and reactivity

#### 10.1. Reactivity

No dangerous reaction known under conditions of normal use.

#### 10.2. Chemical stability

Thermally stable at typical use temperatures.

#### **10.3.** Possibility of hazardous reactions

No data available

#### 10.4. Conditions to Avoid

High temperature, Direct sunlight, Fire

#### 10.5. Incompatible Materials

No data available

#### 10.6. Hazardous decomposition products

 $CO, CO_2$ 

#### SECTION 11: Toxicological information

#### 11.1. Information on toxicological effects

Acute toxicity	: LD/LC50 values th	at are releva	ant for classification
	[Methylcyclohexan	e]	
	Oral-rat	LD50	>5,000 mg/kg
	Dermal-rabbit	LD50	>2,000 mg/kg
	Inhalation-rat	LC50	>20 mg/L/4h
	[Isoparaffinic Hydro	ocarbon]	
	Oral-rat	LD50	>5,000 mg/kg
	Dermal-rabbit	LD50	>5,000 mg/kg
Skin irritation	: Category 2 Caus	ses skin irrita	ation
Specific target organ toxicity ; single exposure	: Category 3 May	cause drow	siness or dizziness
Aspiration hazard	: Category 1 May	be fatal if sv	vallowed and enters airways
Carcinogenicity	Other materials ; N	ot contain a	ed by the IARC as Group 2B. ny component that is considered ACGIH, EPA, EU or NTP.

Regarding the carcinogenicity of carbon black, International Agency for Research on Cancer (IARC) has classified as a group 2B. However, ACGIH (American Conference of Governmental Industrial Hygienists), EPA (Environmental Protection Agency), EU (European Chemicals Agency), NTP (National Toxicology Program, USA) in the classification of suspected carcinogenic to humans has not been done. Therefore, as the ink product we could not classify the carcinogenicity of GHS from that there is no sufficient data.

SECTION 12: Ecological information	
12.1. Toxicity	: Category 2 Toxic to aquatic life with long lasting effects
12.2. Persistence and degradability	: No data available
12.3. Bioaccumulative potential	:No data available

- 12.4. Mobility in soil
- 12.5. Results of PBT and vPvB assessment
- 12.6. Other adverse effects

- : No data available
- : No data available
- : No data available

### SECTION 13: Disposal considerations

#### 13.1. Waste treatment methods

Disposal must be made according to official regulations.

Comply with all Federal, State, and Local regulations regarding disposal.

Do not allow product to reach ground, any water course or sewage system.

#### SECTION 14: Transport information

Determination of whether a Dangerous Good based on ADG Code criteria. UN Numbers listed as "UN" followed by 4 digits. Dangerous Good Classes and Labels for all Dangerous Goods. Special Provisions listed. Road – ADG – Australian Dangerous Goods Code (Road and Rail) Air – IATA – International Air Transport Association Sea – IMDG – International Maritime Dangerous Goods

14.1. UN number	ADG, IMDG, IATA	: UN1210	
14.2. UN proper shipping name	ADG, IMDG, IATA	: PRINTING INK, flammable	
14.3. Transport hazard class(es)	ADG, IMDG, IATA · Class · Labe		
14.4. Packing group	ADG, IMDG, IATA	: П	
14.5. Environmental hazards	Marine pollutant	: No	
14.6. Special precautions for user	EMS Number	: F-E,S-D	
14.7. HAZCHEM Code		: 3YE (ADG7)	

#### SECTION 15: Regulatory information

This product does not contain any hazardous chemical that has been determined by Montreal Protocol (Ozone depleting substances), The Stockholm Convention (Persistent Organic Pollutants), and The Rotterdam Convention (Prior Informed Consent).

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Safework Australia criteria is based on the Globally Harmonised System (GHS) of Classification and Labelling of Chemicals.

#### 15.2. Chemical safety assessment

No Chemical Safety Assessment has been carried out for this mixture by the supplier.

Avoid contact with skin, eyes and clothing.
Obtain special instructions before use.
Do not handle until all safety precautions have been read and understood.
Do not eat, drink or smoke when using this product.
ge, including any incompatibilities
Keep containers tightly closed and store in a cool and dry place.
(

#### areas and containers Keep away from heat and flame, ignition source and sunlight.

Keep out of the reach of children.

#### SECTION 8: Exposure controls and personal protection

#### 8.1. Control parameters

Australian exposure standard	s (2019)		
Titanium dioxide	TWA	10 mg/m <sup>3</sup>	
EH40/2005 Workplace expos	,		
Titanium dioxide	TWA	10 mg/m <sup>3</sup>	
ACGIH (2019)			
Titanium dioxide	TWA	10 mg/m <sup>3</sup>	
Material manufacturer data (reference value)			
Isoparaffinic Hydrocarbon	RCP-TWA	241 ppm	
8.2. Exposure controls			
Personal protective equipmer	nt		
Respiratory Protection	Use with loca	al exhaust ventilation, when in long use.	
	Avoid breath	ing vapours. Wear mask to prevent organic gas, if necessary.	
Hand Protection	: Avoid contac	t with hands. Wear safety gloves, if necessary.	
Eye Protection	Avoid contac	t with eyes. Wear safety glasses, if necessary.	
Skin Protection	: Avoid skin co	ontact. Wear personal protection apron, boots, if necessary.	
Environmental exposure cont	rols		
General advice	: Prevent prod	luct from entering drains.	

Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.

#### SECTION 9: Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

Appearance	: Blue liquid
Odour	: Minor solvent odour
рН	: Not applicable
Boiling point	: 90 °C
Flash point	:11 °C(closed cup)
Relative Density (at 25°C)	: 0.8 ~ 1.0 (g/cm <sup>3</sup> )
Solubility in Water	: Insoluble

#### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

No dangerous reaction known under conditions of normal use.

#### 10.2. Chemical stability

Thermally stable at typical use temperatures.

10.3. Possibility of hazardous reactions

#### No data available

#### 10.4. Conditions to Avoid

High temperature, Direct sunlight, Fire

#### 10.5. Incompatible Materials

#### No data available

#### 10.6. Hazardous decomposition products

 $CO, CO_2$ 

#### SECTION 11: Toxicological information

#### 11.1. Information on toxicological effects

Acute toxicity	<ul> <li>LD/LC50 values that are relevant for classification</li> <li>[Isoparaffinic Hydrocarbon]</li> <li>Oral-rat</li> <li>LD50</li> <li>&gt;5,000 mg/kg</li> <li>Dermal-rabbit</li> <li>LD50</li> <li>&gt;2,000 mg/kg</li> <li>Inhalation-rat</li> <li>LC50</li> <li>&gt;20 mg/L/4h</li> </ul>
Skin irritation	Category 2 Causes skin irritation
Specific target organ toxicity ; single exposure	Category 3 May cause drowsiness or dizziness
Aspiration hazard	: Category 1 May be fatal if swallowed and enters airways
Carcinogenicity	Titanium dioxide has been classified by the IARC as Group 2B. Other materials ; Not contain any component that is considered a human carcinogen by IARC, ACGIH, EPA, EU or NTP.

Regarding the carcinogenicity of titanium dioxide, International Agency for Research on Cancer (IARC) has classified as a group 2B. However, ACGIH (American Conference of Governmental Industrial Hygienists), EPA (Environmental Protection Agency), EU (European Chemicals Agency), NTP (National Toxicology Program, USA) in the classification of suspected carcinogenic to humans has not been done. Therefore, as the ink product we could not classify the carcinogenicity of GHS from that there is no sufficient data.

## SECTION 12: Ecological information

12.1. Toxicity	: Category 2 Toxic to aquatic life with long lasting effects
12.2. Persistence and degradability	: No data available
12.3. Bioaccumulative potential	: No data available
12.4. Mobility in soil	: No data available
12.5. Results of PBT and vPvB assessment	: No data available
12.6. Other adverse effects	: No data available

### SECTION 13: Disposal considerations

#### 13.1. Waste treatment methods

Disposal must be made according to official regulations.

Comply with all Federal, State, and Local regulations regarding disposal. **Do not allow product to reach ground, any water course or sewage system.** 

#### SECTION 14: Transport information

Determination of whether a Dangerous Good based on ADG Code criteria. UN Numbers listed as "UN" followed by 4 digits. Dangerous Good Classes and Labels for all Dangerous Goods. Special Provisions listed. Road – ADG – Australian Dangerous Goods Code (Road and Rail) Air – IATA – International Air Transport Association Sea – IMDG – International Maritime Dangerous Goods

14.1. UN number	ADG, IMDG, IATA	: UN1210

#### SECTION 2: Hazards identification

#### Hazardous Substance, Dangerous Goods.

Classified as hazardous according to the criteria of Safe Work Australia (SWA - formerly NOHSC), and as Dangerous Goods according to the Australian Dangerous Goods (ADG) Code for Transport by Road and Rail.

#### 2.1. Classification of the substance or mixture

#### 2.1.1. Classification (SWA)

- Flammable liquids, Category 2
- Skin irritation, Category 2
- Specific target organ toxicity;

single exposure, Category 3 (narcotic effects)

Aspiration toxicity, Category 1

Hazardous to the aquatic environment,

chronic toxicity, Category 2

#### 2.2. Label elements

Labelling (SWA) Symbols

Signal word

: Danger

Hazard statement

: Highly flammable liquid and vapour Causes skin irritation May cause drowsiness or dizziness May be fatal if swallowed and enters airways

- H225 : Highly flammable liquid and vapour
- H315 : Causes skin irritation
- H336 : May cause drowsiness or dizziness

H304 : May be fatal if swallowed and enters airways H411 : Toxic to aquatic life with long lasting effects

(H225) (H315) (H336)

(H304)

Toxic to aquatic life with long lasting effects	(H411)
recautionary statement	
[Prevention]	
Keep out of reach of children.	(P102)
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.	(P210)
Take precautionary measures against static discharge.	(P243)
Avoid breathing vapours.	(P261)
Wash hands thoroughly after handling.	(P264)
Use only outdoors or in a well-ventilated area.	(P271)
Avoid release to the environment.	(P273)
Wear protective gloves and eye protection .	(P280)
[Response]	
In case of fire : Use dry chemical powder, foam or carbon dioxide to extinguish.	(P370+P378)
IF SWALLOWED : Immediately call a POISON CENTER or physician.	(P301+P310)
IF ON SKIN : Wash with plenty of water and soap.	(P302+P352)
IF ON SKIN (or hair) Take off immediately all contaminated clothing. Rinse skin with water.	(P303+P361+P3
IF INHALED Remove person to fresh air and keep comfortable for breathing.	(P304+P340)
Call a POISON CENTER or physician if you feel unwell.	(P312)
Do NOT induce vomiting.	(P331)
If skin irritation occurs : Get medical advice and attention.	(P332+P313)
Collect spillage.	(P391)
[Storage]	
Store in a well-ventilated place. Keep container tightly closed.	(P403+P233)
(Disposal)	
Dispose of contents and container in accordance with local regulations.	(P501)

#### 2.3. Other hazards

No information available.

# SECTION 3: Composition/information on ingredients

Ingredients :

Chemical Name /	Composition	CAS	Hazard Class	Hazard statement
Generic name	weight %	Registry No.	(category)	
Isoparaffinic Hydrocarbon	45 ~ 55	Confidential	Flam. Liq. 2 Skin Irrit. 2 STOT. SE. 3 Asp. Tox. 1 Aquatic Chronic 2	H225 H315 H336 H304 H411
Synthetic resin	35 ~ 45	Confidential	none	none
Titanium dioxide	1 ~ 10	13463-67-7	none	none
Organic pigment	1 ~ 10	Confidential	none	none
total	100			

# SECTION 4: First-aid measures

#### 4.1. Description of first aid measures

IF INHALED	<ul> <li>Remove victim to fresh air and keep at rest in a position comfortable for breathing.</li> <li>Consult a doctor if symptoms persist.</li> </ul>
IF ON SKIN	Remove / Take off immediately all contaminated clothing. Wash with soap and water. If skin irritation/rash occurs or feel unwell, consult a doctor for medical advice.
IF IN EYES	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention.
IF SWALLOWED	: After rinse mouth immediately, give about 250 ml of water or milk and thin in the stomach, and do not vomit forcibly. Moreover, do not give anything from the mouth to the patient when not conscious. Receive the doctor's treatment (stomach pump) promptly.

#### 5.1. Extinguishing media

Suitable extinguishing media Unsuitable extinguishing media

: Dry chemical powder, foam or carbon dioxide

: Water jet

#### 5.2. Special hazards arising from the substance or mixture

For initial stage extinction, carbon dioxide or dry chemical powder. When a fire extends, fire is extinguished by a large amount of water spray. Do not discharge extinguishing waters into the aquatic environment.

#### 5.3. Advice for firefighters

In the extinction work, an appropriate protective equipment (gloves, glasses, and mask) has to be worn. Because during a fire, hazardous gases may be generated, fire-fighters have to wear self-contained breathing apparatus and other protective equipment.

#### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate personnel to safe area. Shut off all sources of ignition.

No Flares, smoking or flame in area. Put on protective equipment. Ensure adequate ventilation.

#### 6.2. Environmental precautions

Do not throw the leakage thing directly into environment

#### 6.3. Methods and material for containment and cleaning up

In case of a small spill, remove by absorbing with absorbents (sawdust, soil, sand, waste cloth, etc.), and then wipe off the waste well with waste cloth, and rag.

In case of large spills, prevent leakage by enclosing with nonflammables (earth and sand, etc.)

and collect into empty container by scoop, suction equipment or the like.

# SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Advice on safe handling : Use with adequate ventilation.

Avoid contact with skin, eyes and clothing.

Obtain special instructions before use.

Do not handle until all safety precautions have been read and understood.

Do not eat, drink or smoke when using this product.

#### 7.2. Conditions for safe storage, including any incompatibilities

: Keep containers tightly closed and store in a cool and dry place. Requirements for storage areas and containers Keep away from heat and flame, ignition source and sunlight. Keep out of the reach of children.

#### SECTION 8: Exposure controls and personal protection

#### 8.1. Control parameters

Australian exposure standards (2019)				
Titanium dioxide	TWA	10 mg/m <sup>3</sup>		
		Fourth Edition, published 2020)		
Titanium dioxide	TWA	10 mg/m <sup>3</sup>		
ACGIH (2019)				
Titanium dioxide	TWA	10 mg/m <sup>3</sup>		

Material manufacturer data (reference value)

Isoparaffinic Hydrocarbon RCP-TWA 241 ppm

#### 8.2. Exposure controls

Personal protective equipment

Respiratory Protection	n : Use with local exhaust ventilation, when in long use.	
		Avoid breathing vapours. Wear mask to prevent organic gas, if necessary.
Hand Protection	:	Avoid contact with hands. Wear safety gloves, if necessary.
Eye Protection	:	Avoid contact with eyes. Wear safety glasses, if necessary.
Skin Protection	:	Avoid skin contact. Wear personal protection apron, boots, if necessary.

Environmental exposure controls

General advice

: Prevent product from entering drains.

Prevent further leakage or spillage if safe to do so.

If the product contaminates rivers and lakes or drains inform respective authorities.

#### SECTION 9: Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

Appearance	: Brown liquid
Odour	: Minor solvent odour
рН	: Not applicable
Boiling point	: 90 °C
Flash point	:11 °C(closed cup)
Relative Density (at 25°C)	: 0.8 ~ 1.0 (g/cm <sup>3</sup> )
Solubility in Water	: Insoluble

#### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

No dangerous reaction known under conditions of normal use.

#### 10.2. Chemical stability

Thermally stable at typical use temperatures.

#### 10.3. Possibility of hazardous reactions

No data available

#### 10.4. Conditions to Avoid

High temperature, Direct sunlight, Fire

10.5. Incompatible Materials

No data available

#### 10.6. Hazardous decomposition products

 $CO, CO_2$ 

#### SECTION 11: Toxicological information

11.1. Information on toxicologi	.1. Information on toxicological effects		
Acute toxicity	: LD/LC50 values that are relevant for classification		
	[Isoparaffinic Hydrocarbon]		
	Oral-rat	LD50	>5,000 mg/kg
	Dermal-rabbit	LD50	>2,000 mg/kg
	Inhalation-rat	LC50	>20 mg/L/4h
Skin irritation	: Category 2 Cau	ses skin irrita	ation
Specific target organ toxicity ; single exposure	Category 3 May	cause drows	siness or dizziness
Aspiration hazard	Category 1 May	be fatal if sv	vallowed and enters airways
Carcinogenicity	Titanium dioxide has been classified by the IARC as Group 2 Other materials ; Not contain any component that is consider a human carcinogen by IARC, ACGIH, EPA, EU or NTP.		ny component that is considered

Regarding the carcinogenicity of titanium dioxide, International Agency for Research on Cancer (IARC) has classified as a group 2B. However, ACGIH (American Conference of Governmental Industrial Hygienists), EPA (Environmental Protection Agency), EU (European Chemicals Agency), NTP (National Toxicology Program, USA) in the classification of suspected carcinogenic to humans has not been done. Therefore, as the ink product we could not classify the carcinogenicity of GHS from that there is no sufficient data.

# SECTION 12: Ecological information12.1. Toxicity: Category 2 Toxic to aquatic life with long lasting effects12.2. Persistence and degradability: No data available12.3. Bioaccumulative potential: No data available12.4. Mobility in soil: No data available12.5. Results of PBT and vPvB assessment: No data available12.6. Other adverse effects: No data available

#### **SECTION 13: Disposal considerations**

#### 13.1. Waste treatment methods

Disposal must be made according to official regulations.

Comply with all Federal, State, and Local regulations regarding disposal.

Do not allow product to reach ground, any water course or sewage system.

#### SECTION 14: Transport information

Determination of whether a Dangerous Good based on ADG Code criteria. UN Numbers listed as "UN" followed by 4 digits. Dangerous Good Classes and Labels for all Dangerous Goods. Special Provisions listed. Road – ADG – Australian Dangerous Goods Code (Road and Rail) Air – IATA – International Air Transport Association Sea - IMDG - International Maritime Dangerous Goods 14.1. UN number ADG, IMDG, IATA : UN1210 14.2. UN proper shipping name ADG, IMDG, IATA : PRINTING INK, flammable 14.3. Transport hazard class(es) ADG, IMDG, IATA 3 (Flammable liquids) · Class · Label 3 14.4. Packing group ADG, IMDG, IATA : 1 14.5. Environmental hazards Marine pollutant : No : F-E.S-D 14.6. Special precautions for user **EMS Number** 14.7. HAZCHEM Code : 3YE (ADG7)

#### **SECTION 15: Regulatory information**

This product does not contain any hazardous chemical that has been determined by Montreal Protocol (Ozone depleting substances), The Stockholm Convention (Persistent Organic Pollutants), and The Rotterdam Convention (Prior Informed Consent).

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Safework Australia criteria is based on the Globally Harmonised System (GHS) of Classification and Labelling of Chemicals.

#### 15.2. Chemical safety assessment

No Chemical Safety Assessment has been carried out for this mixture by the supplier.

Call a POISON CENTER or physician if you feel unwell.	(P312)
Do NOT induce vomiting.	(P331)
If skin irritation occurs : Get medical advice and attention.	(P332+P313)
Collect spillage.	(P391)
[Storage]	
Store in a well-ventilated place. Keep container tightly closed.	(P403+P233)
[Disposal]	
Dispose of contents and container in accordance with local regulations.	(P501)

#### 2.3. Other hazards

No information available.

# SECTION 3: Composition/information on ingredients

Ingredients :

Chemical Name /	Composition	CAS	Hazard Class	Hazard statement
Generic name	weight %	Registry No.	(category)	
Isoparaffinic Hydrocarbon	45 ~ 55	Confidential	Flam. Liq. 2 Skin Irrit. 2 STOT. SE. 3 Asp. Tox. 1 Aquatic Chronic 2	H225 H315 H336 H304 H411
Synthetic resin	30 ~ 40	Confidential	none	none
Titanium dioxide	5 ~ 15	13463-67-7	none	none
Organic pigment	1 ~ 10	Confidential	none	none
total	100			

# SECTION 4: First-aid measures

#### 4.1. Description of first aid measures

IF INHALED	<ul> <li>Remove victim to fresh air and keep at rest in a position comfortable for breathing.</li> <li>Consult a doctor if symptoms persist.</li> </ul>
IF ON SKIN	<ul> <li>Remove / Take off immediately all contaminated clothing. Wash with soap and water.</li> <li>If skin irritation/rash occurs or feel unwell, consult a doctor for medical advice.</li> </ul>
IF IN EYES	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention.
IF SWALLOWED	: After rinse mouth immediately, give about 250 ml of water or milk and thin in the stomach, and do not vomit forcibly. Moreover, do not give anything from the mouth to the patient when not conscious. Receive the doctor's treatment (stomach pump) promptly.

#### 5.1. Extinguishing media

Suitable extinguishing media Unsuitable extinguishing media

#### 5.2. Special hazards arising from the substance or mixture

For initial stage extinction, carbon dioxide or dry chemical powder. When a fire extends, fire is extinguished by a large amount of water spray. Do not discharge extinguishing waters into the aquatic environment.

: Water jet

#### 5.3. Advice for firefighters

In the extinction work, an appropriate protective equipment (gloves, glasses, and mask) has to be worn. Because during a fire, hazardous gases may be generated, fire-fighters have to wear self-contained breathing apparatus and other protective equipment.

: Dry chemical powder, foam or carbon dioxide

#### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate personnel to safe area. Shut off all sources of ignition.

No Flares, smoking or flame in area. Put on protective equipment. Ensure adequate ventilation.

#### 6.2. Environmental precautions

Do not throw the leakage thing directly into environment

#### 6.3. Methods and material for containment and cleaning up

In case of a small spill, remove by absorbing with absorbents (sawdust, soil, sand, waste cloth, etc.), and then wipe off the waste well with waste cloth, and rag.

In case of large spills, prevent leakage by enclosing with nonflammables (earth and sand, etc.)

and collect into empty container by scoop, suction equipment or the like.

## SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Advice on safe handling : Use with adequate ventilation.

Avoid contact with skin, eyes and clothing.

Obtain special instructions before use.

Do not handle until all safety precautions have been read and understood.

Do not eat, drink or smoke when using this product.

#### 7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage<br/>areas and containers: Keep containers tightly closed and store in a cool and dry place.<br/>Keep away from heat and flame, ignition source and sunlight.<br/>Keep out of the reach of children.

#### SECTION 8: Exposure controls and personal protection

#### 8.1. Control parameters

Australian exposure standards (2019)				
Titanium dioxide	TWA	10 mg/m <sup>3</sup>		
		Fourth Edition, published 2020)		
Titanium dioxide	TWA	10 mg/m <sup>3</sup>		
ACGIH (2019)				
Titanium dioxide	TWA	10 mg/m <sup>3</sup>		

Material manufacturer data (reference value)

Isoparaffinic Hydrocarbon RCP-TWA 241 ppm

#### 8.2. Exposure controls

 Personal protective equipment

 Respiratory Protection
 : Use with local exhaust ventilation, when in long use.

 Avoid breathing vapours. Wear mask to prevent organic gas, if necessary.

 Hand Protection
 : Avoid contact with hands. Wear safety gloves, if necessary.

 Eye Protection
 : Avoid contact with eyes. Wear safety glasses, if necessary.

 Skin Protection
 : Avoid skin contact. Wear personal protection apron, boots, if necessary.

 Environmental exposure controls

General advice

: Prevent product from entering drains.

Prevent further leakage or spillage if safe to do so.

If the product contaminates rivers and lakes or drains inform respective authorities.

#### SECTION 9: Physical and chemical properties

Appearance	: Light blue liquid
Odour	: Minor solvent odour
рН	: Not applicable
Boiling point	: 90 °C
Flash point	:11 °C(closed cup)
Relative Density (at 25°C)	: 0.8 ~ 1.0 (g/cm <sup>3</sup> )
Solubility in Water	: Insoluble

#### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

No dangerous reaction known under conditions of normal use.

#### 10.2. Chemical stability

Thermally stable at typical use temperatures.

#### 10.3. Possibility of hazardous reactions

No data available

#### 10.4. Conditions to Avoid

High temperature, Direct sunlight, Fire

10.5. Incompatible Materials

No data available

#### 10.6. Hazardous decomposition products

 $CO, CO_2$ 

#### SECTION 11: Toxicological information

11.1. Information on toxicological effects					
Acute toxicity	: LD/LC50 values that are relevant for classification				
	[Isoparaffinic Hydr	[Isoparaffinic Hydrocarbon]			
	Oral-rat	LD50	>5,000 mg/kg		
	Dermal-rabbit	LD50	>2,000 mg/kg		
	Inhalation-rat	LC50	>20 mg/L/4h		
Skin irritation	: Category 2 Cau	ses skin irrita	ation		
Specific target organ toxicity ; single exposure	Category 3 May	Category 3 May cause drowsiness or dizziness			
Aspiration hazard	Category 1 May	be fatal if sv	vallowed and enters airways		
Carcinogenicity	Titanium dioxide has been classified by the IARC as Group 2B. Other materials : Not contain any component that is considered a human carcinogen by IARC, ACGIH, EPA, EU or NTP.				

Regarding the carcinogenicity of titanium dioxide, International Agency for Research on Cancer (IARC) has classified as a group 2B. However, ACGIH (American Conference of Governmental Industrial Hygienists), EPA (Environmental Protection Agency), EU (European Chemicals Agency), NTP (National Toxicology Program, USA) in the classification of suspected carcinogenic to humans has not been done. Therefore, as the ink product we could not classify the carcinogenicity of GHS from that there is no sufficient data.

# SECTION 12: Ecological information 12.1. Toxicity : Category 2 Toxic to aquatic life with long lasting effects 12.2. Persistence and degradability : No data available 12.3. Bioaccumulative potential : No data available 12.4. Mobility in soil : No data available 12.5. Results of PBT and vPvB assessment : No data available 12.6. Other adverse effects : No data available

#### SECTION 13: Disposal considerations

#### 13.1. Waste treatment methods

Disposal must be made according to official regulations.

Comply with all Federal, State, and Local regulations regarding disposal.

Do not allow product to reach ground, any water course or sewage system.

#### SECTION 14: Transport information

Determination of whether a Dangerous Good based on ADG Code criteria. UN Numbers listed as "UN" followed by 4 digits. Dangerous Good Classes and Labels for all Dangerous Goods. Special Provisions listed. Road – ADG – Australian Dangerous Goods Code (Road and Rail) Air – IATA – International Air Transport Association Sea - IMDG - International Maritime Dangerous Goods 14.1. UN number ADG, IMDG, IATA : UN1210 14.2. UN proper shipping name ADG, IMDG, IATA : PRINTING INK, flammable 14.3. Transport hazard class(es) ADG, IMDG, IATA 3 (Flammable liquids) · Class · Label 3 14.4. Packing group ADG, IMDG, IATA : 1 14.5. Environmental hazards Marine pollutant : No : F-E.S-D 14.6. Special precautions for user **EMS Number** 14.7. HAZCHEM Code : 3YE (ADG7)

#### SECTION 15: Regulatory information

This product does not contain any hazardous chemical that has been determined by Montreal Protocol (Ozone depleting substances), The Stockholm Convention (Persistent Organic Pollutants), and The Rotterdam Convention (Prior Informed Consent).

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Safework Australia criteria is based on the Globally Harmonised System (GHS) of Classification and Labelling of Chemicals.

#### 15.2. Chemical safety assessment

No Chemical Safety Assessment has been carried out for this mixture by the supplier.

#### 1.4. Emergency telephone number

Poisons Information Centre : 13 11 26

#### SECTION 2: Hazards identification

#### Hazardous Substance , Dangerous Goods.

Classified as hazardous according to the criteria of Safe Work Australia (SWA - formerly NOHSC), and as Dangerous Goods according to the Australian Dangerous Goods (ADG) Code for Transport by Road and Rail.

#### 2.1. Classification of the substance or mixture

#### 2.1.1. Classification (SWA)

- Flammable liquids, Category 2
- Skin irritation, Category 2
- Specific target organ toxicity;

single exposure, Category 3 (narcotic effects)

Aspiration toxicity, Category 1

Hazardous to the aquatic environment,

chronic toxicity, Category 2

#### 2.2. Label elements

Labelling (SWA) Symbols

Signal word

: Danger

Hazard statement	: Highly flammable liquid and vapour
	Causes skin irritation
	May cause drowsiness or dizziness

May be fatal if swallowed and enters airways

- H225 : Highly flammable liquid and vapour
- H315 : Causes skin irritation
- H336 : May cause drowsiness or dizziness

H304 : May be fatal if swallowed and enters airways H411 : Toxic to aquatic life with long lasting effects

Toxic to aquatic life with long lasting effects	(H411)
recautionary statement	
[Prevention]	
Keep out of reach of children.	(P102)
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.	(P210)
Take precautionary measures against static discharge.	(P243)
Avoid breathing vapours.	(P261)
Wash hands thoroughly after handling.	(P264)
Use only outdoors or in a well-ventilated area.	(P271)
Avoid release to the environment.	(P273)
Wear protective gloves and eye protection .	(P280)
[Response]	
In case of fire : Use dry chemical powder, foam or carbon dioxide to extinguish.	(P370+P378)
IF SWALLOWED : Immediately call a POISON CENTER or physician.	(P301+P310)
IF ON SKIN : Wash with plenty of water and soap.	(P302+P352)
IF ON SKIN (or hair) : Take off immediately all contaminated clothing. Rinse skin with water.	(P303+P361+P
IF INHALED Remove person to fresh air and keep comfortable for breathing.	(P304+P340)
Call a POISON CENTER or physician if you feel unwell.	(P312)
Do NOT induce vomiting.	(P331)
If skin irritation occurs : Get medical advice and attention.	(P332+P313)
Collect spillage.	(P391)
[Storage]	
Store in a well-ventilated place. Keep container tightly closed.	(P403+P233)
[Disposal]	
Dispose of contents and container in accordance with local regulations.	(P501)

#### 2.3. Other hazards

No information available.

# SECTION 3: Composition/information on ingredients

Ingredients :

Chemical Name /	Composition	CAS	Hazard Class	Hazard statement

# SECTION 4: First-aid measures

### 4.1. Description of first aid measures

IF INHALED	<ul> <li>Remove victim to fresh air and keep at rest in a position comfortable for breathing.</li> <li>Consult a doctor if symptoms persist.</li> </ul>
IF ON SKIN	Remove / Take off immediately all contaminated clothing. Wash with soap and water. If skin irritation/rash occurs or feel unwell, consult a doctor for medical advice.
IF IN EYES	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention.
IF SWALLOWED	: After rinse mouth immediately, give about 250 ml of water or milk and thin in the stomach, and do not vomit forcibly. Moreover, do not give anything from the mouth to the patient when not conscious. Receive the doctor's treatment (stomach pump) promptly.

#### 5.1. Extinguishing media

Suitable extinguishing media Unsuitable extinguishing media

#### 5.2. Special hazards arising from the substance or mixture

For initial stage extinction, carbon dioxide or dry chemical powder. When a fire extends, fire is extinguished by a large amount of water spray. Do not discharge extinguishing waters into the aquatic environment.

: Water jet

#### 5.3. Advice for firefighters

In the extinction work, an appropriate protective equipment (gloves, glasses, and mask) has to be worn. Because during a fire, hazardous gases may be generated, fire-fighters have to wear self-contained breathing apparatus and other protective equipment.

: Dry chemical powder, foam or carbon dioxide

#### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate personnel to safe area. Shut off all sources of ignition.

No Flares, smoking or flame in area. Put on protective equipment. Ensure adequate ventilation.

#### 6.2. Environmental precautions

Do not throw the leakage thing directly into environment

#### 6.3. Methods and material for containment and cleaning up

In case of a small spill, remove by absorbing with absorbents (sawdust, soil, sand, waste cloth, etc.), and then wipe off the waste well with waste cloth, and rag.

In case of large spills, prevent leakage by enclosing with nonflammables (earth and sand, etc.)

and collect into empty container by scoop, suction equipment or the like.

## SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Advice on safe handling : Use with adequate ventilation.

Avoid contact with skin, eyes and clothing.

Obtain special instructions before use.

Do not handle until all safety precautions have been read and understood.

Do not eat, drink or smoke when using this product.

#### 7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage<br/>areas and containers: Keep containers tightly closed and store in a cool and dry place.<br/>Keep away from heat and flame, ignition source and sunlight.<br/>Keep out of the reach of children.

#### SECTION 8: Exposure controls and personal protection

#### 8.1. Control parameters

Australian exposure standard	ls (2019)	
Titanium dioxide	TWA	10 mg/m <sup>3</sup>
EH40/2005 Workplace expos	sure limits	(Fourth Edition, published 2020)
Titanium dioxide	TWA	10 mg/m <sup>3</sup>
ACGIH (2019)		
Titanium dioxide	TWA	10 mg/m <sup>3</sup>

Material manufacturer data (reference value)

Isoparaffinic Hydrocarbon RCP-TWA 241 ppm

#### 8.2. Exposure controls

 Personal protective equipment

 Respiratory Protection
 : Use with local exhaust ventilation, when in long use.

 Avoid breathing vapours. Wear mask to prevent organic gas, if necessary.

 Hand Protection
 : Avoid contact with hands. Wear safety gloves, if necessary.

 Eye Protection
 : Avoid contact with eyes. Wear safety glasses, if necessary.

 Skin Protection
 : Avoid skin contact. Wear personal protection apron, boots, if necessary.

Environmental exposure controls

General advice

: Prevent product from entering drains.

Prevent further leakage or spillage if safe to do so.

If the product contaminates rivers and lakes or drains inform respective authorities.

#### SECTION 9: Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

Appearance	: Pink liquid	
Odour	: Minor solvent odour	
рН	: Not applicable	
Boiling point	: 90 °C	
Flash point	:11 °C(closed cup)	
Relative Density (at 25°C)	: 0.9 ~ 1.1 (g/cm <sup>3</sup> )	
Solubility in Water	: Insoluble	

#### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

No dangerous reaction known under conditions of normal use.

#### 10.2. Chemical stability

Thermally stable at typical use temperatures.

#### 10.3. Possibility of hazardous reactions

No data available

#### 10.4. Conditions to Avoid

High temperature, Direct sunlight, Fire

10.5. Incompatible Materials

No data available

#### 10.6. Hazardous decomposition products

 $CO, CO_2$ 

#### SECTION 11: Toxicological information

11.1. Information on toxicologi	cal effects		
Acute toxicity	<ul> <li>LD/LC50 values that are relevant for classification [Isoparaffinic Hydrocarbon]</li> </ul>		
	Oral-rat LD50 >5,000 mg/kg		>5,000 mg/kg
	Dermal-rabbit	LD50	>2,000 mg/kg
	Inhalation-rat	LC50	>20 mg/L/4h
Skin irritation	: Category 2 Cau	ses skin irrita	ation
Specific target organ toxicity ; single exposure	Category 3 May	cause drows	siness or dizziness
Aspiration hazard	Category 1 May	be fatal if sv	vallowed and enters airways
Carcinogenicity	Titanium dioxide has been classified by the IARC as Group 2B. Other materials ; Not contain any component that is considered a human carcinogen by IARC, ACGIH, EPA, EU or NTP.		

Regarding the carcinogenicity of titanium dioxide, International Agency for Research on Cancer (IARC) has classified as a group 2B. However, ACGIH (American Conference of Governmental Industrial Hygienists), EPA (Environmental Protection Agency), EU (European Chemicals Agency), NTP (National Toxicology Program, USA) in the classification of suspected carcinogenic to humans has not been done. Therefore, as the ink product we could not classify the carcinogenicity of GHS from that there is no sufficient data.

# SECTION 12: Ecological information 12.1. Toxicity : Category 2 Toxic to aquatic life with long lasting effects 12.2. Persistence and degradability : No data available 12.3. Bioaccumulative potential : No data available 12.4. Mobility in soil : No data available 12.5. Results of PBT and vPvB assessment : No data available 12.6. Other adverse effects : No data available

#### **SECTION 13: Disposal considerations**

#### 13.1. Waste treatment methods

Disposal must be made according to official regulations.

Comply with all Federal, State, and Local regulations regarding disposal.

Do not allow product to reach ground, any water course or sewage system.

#### SECTION 14: Transport information

Determination of whether a Dangerous Good based on ADG Code criteria. UN Numbers listed as "UN" followed by 4 digits. Dangerous Good Classes and Labels for all Dangerous Goods. Special Provisions listed. Road – ADG – Australian Dangerous Goods Code (Road and Rail) Air – IATA – International Air Transport Association Sea - IMDG - International Maritime Dangerous Goods 14.1. UN number ADG, IMDG, IATA : UN1210 14.2. UN proper shipping name ADG, IMDG, IATA : PRINTING INK, flammable 14.3. Transport hazard class(es) ADG, IMDG, IATA 3 (Flammable liquids) · Class · Label 3 14.4. Packing group ADG, IMDG, IATA : 1 14.5. Environmental hazards Marine pollutant : No : F-E.S-D 14.6. Special precautions for user **EMS Number** 14.7. HAZCHEM Code : 3YE (ADG7)

#### **SECTION 15: Regulatory information**

This product does not contain any hazardous chemical that has been determined by Montreal Protocol (Ozone depleting substances), The Stockholm Convention (Persistent Organic Pollutants), and The Rotterdam Convention (Prior Informed Consent).

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Safework Australia criteria is based on the Globally Harmonised System (GHS) of Classification and Labelling of Chemicals.

#### 15.2. Chemical safety assessment

No Chemical Safety Assessment has been carried out for this mixture by the supplier.

#### 1.4. Emergency telephone number

Poisons Information Centre : 13 11 26

#### SECTION 2: Hazards identification

#### Hazardous Substance , Dangerous Goods.

Classified as hazardous according to the criteria of Safe Work Australia (SWA - formerly NOHSC), and as Dangerous Goods according to the Australian Dangerous Goods (ADG) Code for Transport by Road and Rail.

#### 2.1. Classification of the substance or mixture

#### 2.1.1. Classification (SWA)

- Flammable liquids, Category 2
- Skin irritation, Category 2
- Specific target organ toxicity;

single exposure, Category 3 (narcotic effects)

Aspiration toxicity, Category 1

Hazardous to the aquatic environment,

chronic toxicity, Category 2

#### 2.2. Label elements

Labelling (SWA) Symbols

Sign	al v	vord

- : Danger
- Hazard statement : Highly flammable liquid and vapour Causes skin irritation May cause drowsiness or dizziness May be fatal if swallowed and enters airways

- H225 : Highly flammable liquid and vapour
- H315 : Causes skin irritation
- H336 : May cause drowsiness or dizziness
- H304 : May be fatal if swallowed and enters airways H411 : Toxic to aquatic life with long lasting effects

(H225)	
(H315)	
(H336)	

(H304)

Toxic to aquatic life with long lasting effects	(H411)
recautionary statement	
[Prevention]	
Keep out of reach of children.	(P102)
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.	(P210)
Take precautionary measures against static discharge.	(P243)
Avoid breathing vapours.	(P261)
Wash hands thoroughly after handling.	(P264)
Use only outdoors or in a well-ventilated area.	(P271)
Avoid release to the environment.	(P273)
Wear protective gloves and eye protection .	(P280)
[Response]	
In case of fire : Use dry chemical powder, foam or carbon dioxide to extinguish.	(P370+P378)
IF SWALLOWED : Immediately call a POISON CENTER or physician.	(P301+P310)
IF ON SKIN : Wash with plenty of water and soap.	(P302+P352)
IF ON SKIN (or hair) : Take off immediately all contaminated clothing. Rinse skin with water.	(P303+P361+P3
IF INHALED Remove person to fresh air and keep comfortable for breathing.	(P304+P340)
Call a POISON CENTER or physician if you feel unwell.	(P312)
Do NOT induce vomiting.	(P331)
If skin irritation occurs : Get medical advice and attention.	(P332+P313)
Collect spillage.	(P391)
[Storage]	
Store in a well-ventilated place. Keep container tightly closed.	(P403+P233)
[Disposal]	
Dispose of contents and container in accordance with local regulations.	(P501)

#### 2.3. Other hazards

No information available.

## SECTION 3: Composition/information on ingredients

Ingredients :

Chemical Name /	Composition	CAS	Hazard Class	Hazard statement
Generic name	weight %	Registry No.	(category)	
Isoparaffinic Hydrocarbon	40 ~ 50	Confidential	Flam. Liq. 2 Skin Irrit. 2 STOT. SE. 3 Asp. Tox. 1 Aquatic Chronic 2	H225 H315 H336 H304 H411
Synthetic resin	25 ~ 35	Confidential	none	none
Titanium dioxide	15 ~ 25	13463-67-7	none	none
Organic pigment	1 ~ 10	Confidential	none	none
total	100			

### SECTION 4: First-aid measures

#### 4.1. Description of first aid measures

•	
IF INHALED	<ul> <li>Remove victim to fresh air and keep at rest in a position comfortable for breathing.</li> <li>Consult a doctor if symptoms persist.</li> </ul>
IF ON SKIN	<ul> <li>Remove / Take off immediately all contaminated clothing. Wash with soap and water.</li> <li>If skin irritation/rash occurs or feel unwell, consult a doctor for medical advice.</li> </ul>
IF IN EYES	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention.
IF SWALLOWED	: After rinse mouth immediately, give about 250 ml of water or milk and thin in the stomach and do not vomit forcibly. Moreover, do not give anything from the mouth to the patient when not conscious. Receive the doctor's treatment (stomach pump) promptly.

#### 5.1. Extinguishing media

Suitable extinguishing media Unsuitable extinguishing media

#### 5.2. Special hazards arising from the substance or mixture

For initial stage extinction, carbon dioxide or dry chemical powder. When a fire extends, fire is extinguished by a large amount of water spray. Do not discharge extinguishing waters into the aquatic environment.

: Water jet

#### 5.3. Advice for firefighters

In the extinction work, an appropriate protective equipment (gloves, glasses, and mask) has to be worn. Because during a fire, hazardous gases may be generated, fire-fighters have to wear self-contained breathing apparatus and other protective equipment.

: Dry chemical powder, foam or carbon dioxide

#### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate personnel to safe area. Shut off all sources of ignition.

No Flares, smoking or flame in area. Put on protective equipment. Ensure adequate ventilation.

#### 6.2. Environmental precautions

Do not throw the leakage thing directly into environment

#### 6.3. Methods and material for containment and cleaning up

In case of a small spill, remove by absorbing with absorbents (sawdust, soil, sand, waste cloth, etc.), and then wipe off the waste well with waste cloth, and rag.

In case of large spills, prevent leakage by enclosing with nonflammables (earth and sand, etc.)

and collect into empty container by scoop, suction equipment or the like.

#### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Advice on safe handling : Use with adequate ventilation.

Avoid contact with skin, eyes and clothing.

Obtain special instructions before use.

Do not handle until all safety precautions have been read and understood.

Do not eat, drink or smoke when using this product.

#### 7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage<br/>areas and containers: Keep containers tightly closed and store in a cool and dry place.<br/>Keep away from heat and flame, ignition source and sunlight.<br/>Keep out of the reach of children.

#### SECTION 8: Exposure controls and personal protection

#### 8.1. Control parameters

Isoparaffinic Hydrocarbon	RCP-TWA	241 ppm	
8.2. Exposure controls			
Personal protective equipme	nt		
Respiratory Protection	: Use with loca	al exhaust ventilation, when in long use.	
	Avoid breath	ing vapours. Wear mask to prevent organic gas, if necessary.	
Hand Protection	Avoid contact with hands. Wear safety gloves, if necessary.		
Eye Protection	Avoid contact with eyes. Wear safety glasses, if necessary.		
Skin Protection	: Avoid skin co	ontact. Wear personal protection apron, boots, if necessary.	
Environmental exposure con	trols		
General advice	Prevent product from entering drains.		

Prevent further leakage or spillage if safe to do so.

If the product contaminates rivers and lakes or drains inform respective authorities.

#### SECTION 9: Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

Appearance	: Red liquid
Odour	: Minor solvent odour
рН	: Not applicable
Boiling point	: 90 °C
Flash point	:11 °C(closed cup)
Relative Density (at 25°C)	: 0.8 ~ 1.0 (g/cm <sup>3</sup> )
Solubility in Water	: Insoluble

#### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

No dangerous reaction known under conditions of normal use.

#### 10.2. Chemical stability

Thermally stable at typical use temperatures.

#### 10.3. Possibility of hazardous reactions

No data available

#### 10.4. Conditions to Avoid

High temperature, Direct sunlight, Fire

10.5. Incompatible Materials

No data available

#### 10.6. Hazardous decomposition products

 $CO, CO_2$ 

#### SECTION 11: Toxicological information

11.1. Information on toxicologi	cal effects		
Acute toxicity	: LD/LC50 values that are relevant for classification		
	[Isoparaffinic Hydrocarbon]		
	Oral-rat	LD50	>5,000 mg/kg
	Dermal-rabbit	LD50	>2,000 mg/kg
	Inhalation-rat	LC50	>20 mg/L/4h
Skin irritation	: Category 2 Cau	ses skin irrita	ation
Specific target organ toxicity ; single exposure	Category 3 May cause drowsiness or dizziness		siness or dizziness
Aspiration hazard	Category 1 May	be fatal if sv	vallowed and enters airways
Carcinogenicity	<ul> <li>Titanium dioxide has been classified by the IARC as Group 2B.</li> <li>Other materials ; Not contain any component that is considered a human carcinogen by IARC, ACGIH, EPA, EU or NTP.</li> </ul>		

Regarding the carcinogenicity of titanium dioxide, International Agency for Research on Cancer (IARC) has classified as a group 2B. However, ACGIH (American Conference of Governmental Industrial Hygienists), EPA (Environmental Protection Agency), EU (European Chemicals Agency), NTP (National Toxicology Program, USA) in the classification of suspected carcinogenic to humans has not been done. Therefore, as the ink product we could not classify the carcinogenicity of GHS from that there is no sufficient data.

# SECTION 12: Ecological information12.1. Toxicity: Category 2 Toxic to aquatic life with long lasting effects12.2. Persistence and degradability: No data available12.3. Bioaccumulative potential: No data available12.4. Mobility in soil: No data available12.5. Results of PBT and vPvB assessment: No data available12.6. Other adverse effects: No data available

#### SECTION 13: Disposal considerations

#### 13.1. Waste treatment methods

Disposal must be made according to official regulations.

Comply with all Federal, State, and Local regulations regarding disposal.

Do not allow product to reach ground, any water course or sewage system.

#### SECTION 14: Transport information

Determination of whether a Dangerous Good based on ADG Code criteria. UN Numbers listed as "UN" followed by 4 digits. Dangerous Good Classes and Labels for all Dangerous Goods. Special Provisions listed. Road – ADG – Australian Dangerous Goods Code (Road and Rail) Air – IATA – International Air Transport Association Sea - IMDG - International Maritime Dangerous Goods 14.1. UN number ADG, IMDG, IATA : UN1210 14.2. UN proper shipping name ADG, IMDG, IATA : PRINTING INK, flammable 14.3. Transport hazard class(es) ADG, IMDG, IATA 3 (Flammable liquids) · Class · Label 3 14.4. Packing group ADG, IMDG, IATA : 1 14.5. Environmental hazards Marine pollutant : No : F-E.S-D 14.6. Special precautions for user **EMS Number** 14.7. HAZCHEM Code : 3YE (ADG7)

#### SECTION 15: Regulatory information

This product does not contain any hazardous chemical that has been determined by Montreal Protocol (Ozone depleting substances), The Stockholm Convention (Persistent Organic Pollutants), and The Rotterdam Convention (Prior Informed Consent).

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Safework Australia criteria is based on the Globally Harmonised System (GHS) of Classification and Labelling of Chemicals.

#### 15.2. Chemical safety assessment

No Chemical Safety Assessment has been carried out for this mixture by the supplier.

## Hazardous Substance, Dangerous Goods.

Classified as hazardous according to the criteria of Safe Work Australia (SWA - formerly NOHSC), and as Dangerous Goods according to the Australian Dangerous Goods (ADG) Code for Transport by Road and Rail.

#### 2.1. Classification of the substance or mixture

#### 2.1.1. Classification (SWA)

- Flammable liquids, Category 2
- Skin irritation, Category 2
- Specific target organ toxicity;

single exposure, Category 3 (narcotic effects)

Aspiration toxicity, Category 1

Hazardous to the aquatic environment,

chronic toxicity, Category 2

#### 2.2. Label elements

Labelling (SWA) Symbols

Signal word

- : Danger
- Hazard statement : Highly flammable liquid and vapour Causes skin irritation May cause drowsiness or dizziness May be fatal if swallowed and enters airways

- H225 : Highly flammable liquid and vapour
- H315 : Causes skin irritation
- H336 : May cause drowsiness or dizziness

H304 : May be fatal if swallowed and enters airways H411 : Toxic to aquatic life with long lasting effects

(H304)

Toxic to aquatic life with long lasting effects	(H411)
ecautionary statement	
[Prevention]	
Keep out of reach of children.	(P102)
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.	(P210)
Take precautionary measures against static discharge.	(P243)
Avoid breathing vapours.	(P261)
Wash hands thoroughly after handling.	(P264)
Use only outdoors or in a well-ventilated area.	(P271)
Avoid release to the environment.	(P273)
Wear protective gloves and eye protection .	(P280)
[Response]	
In case of fire : Use dry chemical powder, foam or carbon dioxide to extinguish.	(P370+P378)
IF SWALLOWED : Immediately call a POISON CENTER or physician.	(P301+P310)
IF ON SKIN : Wash with plenty of water and soap.	(P302+P352)
IF ON SKIN (or hair) : Take off immediately all contaminated clothing. Rinse skin with water.	(P303+P361+P35
IF INHALED : Remove person to fresh air and keep comfortable for breathing.	(P304+P340)
Call a POISON CENTER or physician if you feel unwell.	(P312)
Do NOT induce vomiting.	(P331)
If skin irritation occurs : Get medical advice and attention.	(P332+P313)
Collect spillage.	(P391)
[Storage]	
Store in a well-ventilated place. Keep container tightly closed.	(P403+P233)
[Disposal]	
Dispose of contents and container in accordance with local regulations.	(P501)

#### 2.3. Other hazards

No information available.

## SECTION 3: Composition/information on ingredients

Ingredients :

Chemical Name /	Composition	CAS	Hazard Class	Hazard statement
Generic name	weight %	Registry No.	(category)	
Methylcyclohexane	25 ~ 35	108-87-2	Flam. Liq. 2 Skin Irrit. 2 STOT. SE. 3 Asp. Tox. 1 Aquatic Chronic 2	H225 H315 H336 H304 H411
Isoparaffinic Hydrocarbon	5 ~ 15	Confidential	Flam. Liq. 3 Asp. Tox. 1 Aquatic Chronic 2	H226 H304 H411
Synthetic resin	15 ~ 25	Confidential	none	none
Titanium dioxide	30 ~ 40	13463-67-7	none	none
Additive	1 ~ 10	Confidential	none	none
total	100			

## SECTION 4: First-aid measures

#### 4.1. Description of first aid measures

IF INHALED	<ul> <li>Remove victim to fresh air and keep at rest in a position comfortable for breathing.</li> <li>Consult a doctor if symptoms persist.</li> </ul>
IF ON SKIN	<ul> <li>Remove / Take off immediately all contaminated clothing. Wash with soap and water.</li> <li>If skin irritation/rash occurs or feel unwell, consult a doctor for medical advice.</li> </ul>
IF IN EYES	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention.
IF SWALLOWED	: After rinse mouth immediately, give about 250 ml of water or milk and thin in the stomach,

and do not vomit forcibly. Moreover, do not give anything from the mouth to the patient when not conscious. Receive the doctor's treatment (stomach pump) promptly.

#### SECTION 5: Firefighting-measures

#### 5.1. Extinguishing media

Suitable extinguishing media : Dry chemical powder, foam or carbon dioxide Unsuitable extinguishing media : Water jet

#### 5.2. Special hazards arising from the substance or mixture

For initial stage extinction, carbon dioxide or dry chemical powder. When a fire extends, fire is extinguished by a large amount of water spray. Do not discharge extinguishing waters into the aquatic environment.

#### 5.3. Advice for firefighters

In the extinction work, an appropriate protective equipment (gloves, glasses, and mask) has to be worn. Because during a fire, hazardous gases may be generated, fire-fighters have to wear self-contained breathing apparatus and other protective equipment.

#### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate personnel to safe area. Shut off all sources of ignition.

No Flares, smoking or flame in area. Put on protective equipment. Ensure adequate ventilation.

#### 6.2. Environmental precautions

Do not throw the leakage thing directly into environment

#### 6.3. Methods and material for containment and cleaning up

In case of a small spill, remove by absorbing with absorbents (sawdust, soil, sand, waste cloth, etc.), and then wipe off the waste well with waste cloth, and rag.

In case of large spills, prevent leakage by enclosing with nonflammables (earth and sand, etc.)

and collect into empty container by scoop, suction equipment or the like.

#### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Advice on safe handling :	Use with adequate ventilation.			
	Avoid contact with skin, eyes and clothing.			
	Obtain special instructions before use.			
	Do not handle until all safety precautions have been read and understood.			
	Do not eat, drink or smoke when using this product.			
7.2. Conditions for safe storage, including any incompatibilities				
Requirements for storage :	Keep containers tightly closed and store in a cool and dry place.			

: Keep containers tightly closed and store in a cool and dry place.
Keep away from heat and flame, ignition source and sunlight.
Keep out of the reach of children.

#### SECTION 8: Exposure controls and personal protection

#### 8.1. Control parameters

Australian exposure standa Methylcyclohexane Titanium dioxide	rds (2019) TWA TWA	400 ppm 10 mg/m <sup>3</sup>	
EH40/2005 Workplace expo	osure limits (Fou	urth Edition, published 2020)	
Titanium dioxide	TWA	10 mg/m <sup>3</sup>	
ACGIH (2019) Methylcyclohexane Titanium dioxide	TWA TWA	400 ppm 10 mg/m <sup>3</sup>	
8.2. Exposure controls Personal protective equipm	ent		
Respiratory Protection		cal exhaust ventilation, when in long use. hing vapours. Wear mask to prevent organic gas, if necessary.	
Hand Protection	: Avoid conta	ct with hands. Wear safety gloves, if necessary.	
Eye Protection	: Avoid conta	ct with eyes. Wear safety glasses, if necessary.	
Skin Protection	: Avoid skin contact. Wear personal protection apron, boots, if necessary.		

#### Environmental exposure controls

- General advice
- : Prevent product from entering drains.

Prevent further leakage or spillage if safe to do so.

If the product contaminates rivers and lakes or drains inform respective authorities.

#### **SECTION 9: Physical and chemical properties**

#### 9.1 Information on basic physical and chemical properties

Appearance	: White liquid
Odour	: Minor solvent odour
рН	: Not applicable
Boiling point	∶ 100 ~ 153 °C
Flash point	: −3 °C (closed cup)
Relative Density (at 25°C)	: 1.2 ~ 1.4 (g/cm <sup>3</sup> )
Solubility in Water	: Insoluble

#### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

No dangerous reaction known under conditions of normal use.

#### 10.2. Chemical stability

Thermally stable at typical use temperatures.

#### 10.3. Possibility of hazardous reactions

No data available

10.4. Conditions to Avoid

High temperature, Direct sunlight, Fire

#### **10.5. Incompatible Materials**

No data available

10.6. Hazardous decomposition products

CO, CO<sub>2</sub>

#### SECTION 11: Toxicological information

#### 11.1. Information on toxicological effects

Acute toxicity	: LD/LC50 values that are relevant for classification			
	[Methylcyclohexane]			
	Oral-rat	LD50	>5,000 mg/kg	
	Dermal-rabbit	LD50	>2,000 mg/kg	
	Inhalation-rat	LC50	>20 mg/L/4h	
	[Isoparaffinic Hydro	carbon]		
	Oral-rat	LD50	>5,000 mg/kg	
	Dermal-rabbit	LD50	>5,000 mg/kg	
Skin irritation	Category 2 Cause	es skin irrita	ition	
Specific target organ toxicity ; single exposure	Category 3 May o	cause drows	siness or dizziness	
Aspiration hazard	Category 1 May b	oe fatal if sw	vallowed and enters airways	
Carcinogenicity	Other materials ; No	Titanium dioxide has been classified by the IARC as Group 2B. Other materials ; Not contain any component that is considered a human carcinogen by IARC, ACGIH, EPA, EU or NTP.		

Regarding the carcinogenicity of titanium dioxide, International Agency for Research on Cancer (IARC) has classified as a group 2B. However, ACGIH (American Conference of Governmental Industrial Hygienists), EPA (Environmental Protection Agency), EU (European Chemicals Agency), NTP (National Toxicology Program, USA) in the classification of suspected carcinogenic to humans has not been done. Therefore, as the ink product we could not classify the carcinogenicity of GHS from that there is no sufficient data.

#### SECTION 12: Ecological information

12.1. Toxicity

- : Category 2 Toxic to aquatic life with long lasting effects
- 12.2. Persistence and degradability
- : No data available

- 12.3. Bioaccumulative potential : No data available
- 12.4. Mobility in soil
- : No data available
- 12.5. Results of PBT and vPvB assessment
- 12.6. Other adverse effects

- : No data available
- : No data available

#### SECTION 13: Disposal considerations

#### 13.1. Waste treatment methods

Disposal must be made according to official regulations.

Comply with all Federal, State, and Local regulations regarding disposal.

Do not allow product to reach ground, any water course or sewage system.

#### SECTION 14: Transport information

Determination of whether a Dangerous Good based on ADG Code criteria. UN Numbers listed as "UN" followed by 4 digits. Dangerous Good Classes and Labels for all Dangerous Goods. Special Provisions listed. Road – ADG – Australian Dangerous Goods Code (Road and Rail) Air – IATA – International Air Transport Association Sea – IMDG – International Maritime Dangerous Goods

14.1. UN number	ADG, IMDG, IATA	: UN1210
14.2. UN proper shipping name	ADG, IMDG, IATA	: PRINTING INK, flammable
14.3. Transport hazard class(es)	ADG, IMDG, IATA · Class · Label	,
14.4. Packing group	ADG, IMDG, IATA	: П
14.5. Environmental hazards	Marine pollutant	: No
14.6. Special precautions for user	EMS Number	: F-E,S-D
14.7. HAZCHEM Code		: 3YE (ADG7)

#### SECTION 15: Regulatory information

This product does not contain any hazardous chemical that has been determined by Montreal Protocol (Ozone depleting substances), The Stockholm Convention (Persistent Organic Pollutants), and The Rotterdam Convention (Prior Informed Consent).

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Safework Australia criteria is based on the Globally Harmonised System (GHS) of Classification and Labelling of Chemicals.

#### 15.2. Chemical safety assessment

No Chemical Safety Assessment has been carried out for this mixture by the supplier.

#### 5.1. Extinguishing media

Suitable extinguishing media Unsuitable extinguishing media

#### 5.2. Special hazards arising from the substance or mixture

For initial stage extinction, carbon dioxide or dry chemical powder. When a fire extends, fire is extinguished by a large amount of water spray. Do not discharge extinguishing waters into the aquatic environment.

: Water jet

#### 5.3. Advice for firefighters

In the extinction work, an appropriate protective equipment (gloves, glasses, and mask) has to be worn. Because during a fire, hazardous gases may be generated, fire-fighters have to wear self-contained breathing apparatus and other protective equipment.

: Dry chemical powder, foam or carbon dioxide

#### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate personnel to safe area. Shut off all sources of ignition.

No Flares, smoking or flame in area. Put on protective equipment. Ensure adequate ventilation.

#### 6.2. Environmental precautions

Do not throw the leakage thing directly into environment

#### 6.3. Methods and material for containment and cleaning up

In case of a small spill, remove by absorbing with absorbents (sawdust, soil, sand, waste cloth, etc.), and then wipe off the waste well with waste cloth, and rag.

In case of large spills, prevent leakage by enclosing with nonflammables (earth and sand, etc.)

and collect into empty container by scoop, suction equipment or the like.

#### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Advice on safe handling : Use with adequate ventilation.

Avoid contact with skin, eyes and clothing.

Obtain special instructions before use.

Do not handle until all safety precautions have been read and understood.

Do not eat, drink or smoke when using this product.

#### 7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage<br/>areas and containers: Keep containers tightly closed and store in a cool and dry place.<br/>Keep away from heat and flame, ignition source and sunlight.<br/>Keep out of the reach of children.

#### SECTION 8: Exposure controls and personal protection

#### 8.1. Control parameters

Australian exposure standards (2019)				
Titanium dioxide	TWA	10 mg/m <sup>3</sup>		
EH40/2005 Workplace expo	osure limits (F	Fourth Edition, published 2020)		
Titanium dioxide	TWA	10 mg/m <sup>3</sup>		
ACGIH (2019)				
Titanium dioxide	TWA	10 mg/m <sup>3</sup>		

Material manufacturer data (reference value)

Isoparaffinic Hydrocarbon RCP-TWA 241 ppm

#### 8.2. Exposure controls

 Personal protective equipment

 Respiratory Protection
 : Use with local exhaust ventilation, when in long use.

 Avoid breathing vapours. Wear mask to prevent organic gas, if necessary.

 Hand Protection
 : Avoid contact with hands. Wear safety gloves, if necessary.

 Eye Protection
 : Avoid contact with eyes. Wear safety glasses, if necessary.

 Skin Protection
 : Avoid skin contact. Wear personal protection apron, boots, if necessary.

Environmental exposure controls

General advice

: Prevent product from entering drains.

Prevent further leakage or spillage if safe to do so.

If the product contaminates rivers and lakes or drains inform respective authorities.

#### SECTION 9: Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

Appearance	: Yellow liquid
Odour	: Minor solvent odour
рН	: Not applicable
Boiling point	: 90 °C
Flash point	:11 °C(closed cup)
Relative Density (at 25°C)	: 0.9 ~ 1.1 (g/cm <sup>3</sup> )
Solubility in Water	: Insoluble

#### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

No dangerous reaction known under conditions of normal use.

#### 10.2. Chemical stability

Thermally stable at typical use temperatures.

#### 10.3. Possibility of hazardous reactions

No data available

#### 10.4. Conditions to Avoid

High temperature, Direct sunlight, Fire

10.5. Incompatible Materials

No data available

#### 10.6. Hazardous decomposition products

 $CO, CO_2$ 

#### SECTION 11: Toxicological information

11.1. Information on toxicological effects				
Acute toxicity	: LD/LC50 values that are relevant for classification			
	[Isoparaffinic Hydrocarbon]			
	Oral-rat	LD50	>5,000 mg/kg	
	Dermal-rabbit	LD50	>2,000 mg/kg	
	Inhalation-rat	LC50	>20 mg/L/4h	
Skin irritation	: Category 2 Caus	es skin irrita	ation	
Specific target organ toxicity ; single exposure	Category 3 May	cause drows	siness or dizziness	
Aspiration hazard	: Category 1 May	be fatal if sv	vallowed and enters airways	
Carcinogenicity	Titanium dioxide has been classified by the IARC as Group 2B. Other materials ; Not contain any component that is considered a human carcinogen by IARC, ACGIH, EPA, EU or NTP.			

Regarding the carcinogenicity of titanium dioxide, International Agency for Research on Cancer (IARC) has classified as a group 2B. However, ACGIH (American Conference of Governmental Industrial Hygienists), EPA (Environmental Protection Agency), EU (European Chemicals Agency), NTP (National Toxicology Program, USA) in the classification of suspected carcinogenic to humans has not been done. Therefore, as the ink product we could not classify the carcinogenicity of GHS from that there is no sufficient data.

# SECTION 12: Ecological information 12.1. Toxicity : Category 2 Toxic to aquatic life with long lasting effects 12.2. Persistence and degradability : No data available 12.3. Bioaccumulative potential : No data available 12.4. Mobility in soil : No data available 12.5. Results of PBT and vPvB assessment : No data available 12.6. Other adverse effects : No data available

#### **SECTION 13: Disposal considerations**

#### 13.1. Waste treatment methods

Disposal must be made according to official regulations.

Comply with all Federal, State, and Local regulations regarding disposal.

Do not allow product to reach ground, any water course or sewage system.

#### SECTION 14: Transport information

Determination of whether a Dangerous Good based on ADG Code criteria. UN Numbers listed as "UN" followed by 4 digits. Dangerous Good Classes and Labels for all Dangerous Goods. Special Provisions listed. Road – ADG – Australian Dangerous Goods Code (Road and Rail) Air – IATA – International Air Transport Association Sea - IMDG - International Maritime Dangerous Goods 14.1. UN number ADG, IMDG, IATA : UN1210 14.2. UN proper shipping name ADG, IMDG, IATA : PRINTING INK, flammable 14.3. Transport hazard class(es) ADG, IMDG, IATA 3 (Flammable liquids) · Class · Label 3 14.4. Packing group ADG, IMDG, IATA : 1 14.5. Environmental hazards Marine pollutant : No : F-E.S-D 14.6. Special precautions for user **EMS Number** 14.7. HAZCHEM Code : 3YE (ADG7)

#### **SECTION 15: Regulatory information**

This product does not contain any hazardous chemical that has been determined by Montreal Protocol (Ozone depleting substances), The Stockholm Convention (Persistent Organic Pollutants), and The Rotterdam Convention (Prior Informed Consent).

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Safework Australia criteria is based on the Globally Harmonised System (GHS) of Classification and Labelling of Chemicals.

#### 15.2. Chemical safety assessment

No Chemical Safety Assessment has been carried out for this mixture by the supplier.

#### **SECTION 16: Other information**

## Safety Data Sheet

#### according to Safe Work Australia document

"Model Code of Practice Preparation of safety data sheets for hazardous chemicals"

Issued Date : 25 December 2013 Revised Date : 13 December, 2023

time 400X

SECTION 1: Identification ; Chemical product and company identification

#### 1.1. Product identifier

Product Name : Artline 400XF Paint Marker

EK-400N

Colour : (Yellow green)

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Recommended use : Paint marker ink

#### 1.3. Details of the supplier of the safety data sheet

Supplier	Company Name Address Phone Contact (e-mail) Website	<ul> <li>ACCO Brands Australia Pty Ltd</li> <li>2 Coronation Avenue, Kings Park, 2148 NSW, Australia</li> <li>02 9674 0900 (9am to 5pm AEST, Monday to Friday)</li> <li>sds.anz@acco.com</li> <li>www.accobrands.com.au</li> </ul>
Manufacture	r Company Name Address Phone Fax Contact	<ul> <li>Shachihata Inc.</li> <li>4-69,Amazuka-cho,Nishi-ku,Nagoya City,451-0021,Japan</li> <li>+81-52-521-3600</li> <li>+81-52-521-3899</li> <li>https://www.artlineworld.com/contact/</li> </ul>

#### 1.4. Emergency telephone number

Poisons Information Centre : 13 11 26

#### **SECTION 2: Hazards identification**

#### Hazardous Substance , Dangerous Goods.

Classified as hazardous according to the criteria of Safe Work Australia (SWA - formerly NOHSC), and as Dangerous Goods according to the Australian Dangerous Goods (ADG) Code for Transport by Road and Rail.

#### 2.1. Classification of the substance or mixture

#### 2.1.1. Classification (SWA)

- Flammable liquids, Category 2
- Skin irritation, Category 2
- Specific target organ toxicity;

single exposure, Category 3 (narcotic effects)

Aspiration toxicity, Category 1

Hazardous to the aquatic environment,

chronic toxicity, Category 2

#### 2.2. Label elements

Labelling (SWA) Symbols

: Danger

Hazard statement	:	Highly flammable liquid and vapour
		Causes skin irritation
		May cause drowsiness or dizziness
		May be fatal if swallowed and enters airways

- H225 : Highly flammable liquid and vapour
- H315 : Causes skin irritation
- H336 : May cause drowsiness or dizziness
- H304 : May be fatal if swallowed and enters airways H411 : Toxic to aquatic life with long lasting effects

Toxic to aquatic life with long lasting effects	(H411)
recautionary statement	
[Prevention]	
Keep out of reach of children.	(P102)
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.	(P210)
Take precautionary measures against static discharge.	(P243)
Avoid breathing vapours.	(P261)
Wash hands thoroughly after handling.	(P264)
Use only outdoors or in a well-ventilated area.	(P271)
Avoid release to the environment.	(P273)
Wear protective gloves and eye protection .	(P280)
[Response]	
In case of fire : Use dry chemical powder, foam or carbon dioxide to extinguish.	(P370+P378)
IF SWALLOWED : Immediately call a POISON CENTER or physician.	(P301+P310)
IF ON SKIN : Wash with plenty of water and soap.	(P302+P352)
IF ON SKIN (or hair) : Take off immediately all contaminated clothing. Rinse skin with water.	(P303+P361+P353)
IF INHALED : Remove person to fresh air and keep comfortable for breathing.	(P304+P340)
Call a POISON CENTER or physician if you feel unwell.	(P312)
Do NOT induce vomiting.	(P331)
If skin irritation occurs : Get medical advice and attention.	(P332+P313)
Collect spillage.	(P391)
[Storage]	
Store in a well-ventilated place. Keep container tightly closed.	(P403+P233)
[Disposal]	
Dispose of contents and container in accordance with local regulations.	(P501)

#### 2.3. Other hazards

No information available.

## SECTION 3: Composition/information on ingredients

Ingredients :

Chemical Name /	Composition	CAS	Hazard Class	Hazard statement
Generic name	weight %	Registry No.	(category)	
Isoparaffinic Hydrocarbon	40 ~ 50	Confidential	Flam. Liq. 2 Skin Irrit. 2 STOT. SE. 3 Asp. Tox. 1 Aquatic Chronic 2	H225 H315 H336 H304 H411
Synthetic resin	35 ~ 45	Confidential	none	none
Titanium dioxide	5 ~ 15	13463-67-7	none	none
Organic pigment	1 ~ 10	Confidential	none	none
total	100			

### SECTION 4: First-aid measures

#### 4.1. Description of first aid measures

IF INHALED	<ul> <li>Remove victim to fresh air and keep at rest in a position comfortable for breathing.</li> <li>Consult a doctor if symptoms persist.</li> </ul>
IF ON SKIN	<ul> <li>Remove / Take off immediately all contaminated clothing. Wash with soap and water.</li> <li>If skin irritation/rash occurs or feel unwell, consult a doctor for medical advice.</li> </ul>
IF IN EYES	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention.
IF SWALLOWED	: After rinse mouth immediately, give about 250 ml of water or milk and thin in the stomach, and do not vomit forcibly. Moreover, do not give anything from the mouth to the patient when not conscious. Receive the doctor's treatment (stomach pump) promptly.

#### 5.1. Extinguishing media

Suitable extinguishing media Unsuitable extinguishing media

#### 5.2. Special hazards arising from the substance or mixture

For initial stage extinction, carbon dioxide or dry chemical powder. When a fire extends, fire is extinguished by a large amount of water spray. Do not discharge extinguishing waters into the aquatic environment.

: Water jet

#### 5.3. Advice for firefighters

In the extinction work, an appropriate protective equipment (gloves, glasses, and mask) has to be worn. Because during a fire, hazardous gases may be generated, fire-fighters have to wear self-contained breathing apparatus and other protective equipment.

: Dry chemical powder, foam or carbon dioxide

#### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate personnel to safe area. Shut off all sources of ignition.

No Flares, smoking or flame in area. Put on protective equipment. Ensure adequate ventilation.

#### 6.2. Environmental precautions

Do not throw the leakage thing directly into environment

#### 6.3. Methods and material for containment and cleaning up

In case of a small spill, remove by absorbing with absorbents (sawdust, soil, sand, waste cloth, etc.), and then wipe off the waste well with waste cloth, and rag.

In case of large spills, prevent leakage by enclosing with nonflammables (earth and sand, etc.)

and collect into empty container by scoop, suction equipment or the like.

#### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Advice on safe handling : Use with adequate ventilation.

Avoid contact with skin, eyes and clothing.

Obtain special instructions before use.

Do not handle until all safety precautions have been read and understood.

Do not eat, drink or smoke when using this product.

#### 7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage<br/>areas and containers: Keep containers tightly closed and store in a cool and dry place.<br/>Keep away from heat and flame, ignition source and sunlight.<br/>Keep out of the reach of children.

#### SECTION 8: Exposure controls and personal protection

#### 8.1. Control parameters

Australian exposure standards (2019)			
Titanium dioxide	TWA	10 mg/m <sup>3</sup>	
EH40/2005 Workplace expos	sure limits	(Fourth Edition, published 2020)	
Titanium dioxide	TWA	10 mg/m <sup>3</sup>	
ACGIH (2019)			
Titanium dioxide	TWA	10 mg/m <sup>3</sup>	

Material manufacturer data (reference value)

Isoparaffinic Hydrocarbon RCP-TWA 241 ppm

#### 8.2. Exposure controls

 Personal protective equipment

 Respiratory Protection
 : Use with local exhaust ventilation, when in long use.

 Avoid breathing vapours. Wear mask to prevent organic gas, if necessary.

 Hand Protection
 : Avoid contact with hands. Wear safety gloves, if necessary.

 Eye Protection
 : Avoid contact with eyes. Wear safety glasses, if necessary.

 Skin Protection
 : Avoid skin contact. Wear personal protection apron, boots, if necessary.

Environmental exposure controls

General advice

: Prevent product from entering drains.

Prevent further leakage or spillage if safe to do so.

If the product contaminates rivers and lakes or drains inform respective authorities.

#### SECTION 9: Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

Appearance	: Yellow green liquid
Odour	: Minor solvent odour
рН	: Not applicable
Boiling point	: 90 °C
Flash point	:11 °C(closed cup)
Relative Density (at 25°C)	: 0.8 ~ 1.0 (g/cm <sup>3</sup> )
Solubility in Water	: Insoluble

#### SECTION 10: Stability and reactivity

#### 10.1. Reactivity

No dangerous reaction known under conditions of normal use.

#### 10.2. Chemical stability

Thermally stable at typical use temperatures.

#### 10.3. Possibility of hazardous reactions

No data available

#### 10.4. Conditions to Avoid

High temperature, Direct sunlight, Fire

10.5. Incompatible Materials

No data available

#### 10.6. Hazardous decomposition products

 $CO, CO_2$ 

#### SECTION 11: Toxicological information

11.1. Information on toxicologi	cal effects		
Acute toxicity	<ul> <li>LD/LC50 values that are relevant for classification [Isoparaffinic Hydrocarbon]</li> </ul>		
	Oral-rat LD50 >5,000 mg/kg		>5,000 mg/kg
	Dermal-rabbit	LD50	>2,000 mg/kg
	Inhalation-rat	LC50	>20 mg/L/4h
Skin irritation	: Category 2 Caus	ses skin irrita	ation
Specific target organ toxicity ; single exposure	Category 3 May	cause drows	siness or dizziness
Aspiration hazard	Category 1 May	be fatal if sv	vallowed and enters airways
Carcinogenicity	Titanium dioxide has been classified by the IARC as Group 2B. Other materials; Not contain any component that is considered a human carcinogen by IARC, ACGIH, EPA, EU or NTP.		

Regarding the carcinogenicity of titanium dioxide, International Agency for Research on Cancer (IARC) has classified as a group 2B. However, ACGIH (American Conference of Governmental Industrial Hygienists), EPA (Environmental Protection Agency), EU (European Chemicals Agency), NTP (National Toxicology Program, USA) in the classification of suspected carcinogenic to humans has not been done. Therefore, as the ink product we could not classify the carcinogenicity of GHS from that there is no sufficient data.

# SECTION 12: Ecological information 12.1. Toxicity : Category 2 Toxic to aquatic life with long lasting effects 12.2. Persistence and degradability : No data available 12.3. Bioaccumulative potential : No data available 12.4. Mobility in soil : No data available 12.5. Results of PBT and vPvB assessment : No data available 12.6. Other adverse effects : No data available

#### **SECTION 13: Disposal considerations**

#### 13.1. Waste treatment methods

Disposal must be made according to official regulations.

Comply with all Federal, State, and Local regulations regarding disposal.

Do not allow product to reach ground, any water course or sewage system.

#### SECTION 14: Transport information

Determination of whether a Dangerous Good based on ADG Code criteria. UN Numbers listed as "UN" followed by 4 digits. Dangerous Good Classes and Labels for all Dangerous Goods. Special Provisions listed. Road – ADG – Australian Dangerous Goods Code (Road and Rail) Air – IATA – International Air Transport Association Sea - IMDG - International Maritime Dangerous Goods 14.1. UN number ADG, IMDG, IATA : UN1210 14.2. UN proper shipping name ADG, IMDG, IATA : PRINTING INK, flammable 14.3. Transport hazard class(es) ADG, IMDG, IATA 3 (Flammable liquids) · Class · Label 3 14.4. Packing group ADG, IMDG, IATA : 1 14.5. Environmental hazards Marine pollutant : No : F-E.S-D 14.6. Special precautions for user **EMS Number** 14.7. HAZCHEM Code : 3YE (ADG7)

#### **SECTION 15: Regulatory information**

This product does not contain any hazardous chemical that has been determined by Montreal Protocol (Ozone depleting substances), The Stockholm Convention (Persistent Organic Pollutants), and The Rotterdam Convention (Prior Informed Consent).

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Safework Australia criteria is based on the Globally Harmonised System (GHS) of Classification and Labelling of Chemicals.

#### 15.2. Chemical safety assessment

No Chemical Safety Assessment has been carried out for this mixture by the supplier.
